October 2008

To whom it may concern;

The Guide Outfitters Association of British Columbia is pleased to invite you to our third annual GOABC Wildlife Stewardship Series workshop. This year the species is Mountain Goats. This workshop will be held December 8<sup>th</sup> and 9<sup>th</sup> at the Thompson Rivers University in Kamloops, BC.

Wildlife stewardship is the priority for GOABC and we realize that you share our concerns for this species which is so valuable to all of us. The purpose of this GOABC workshop will be to gather information from scientific experts, the knowledgeable public, and leading partners in wildlife stewardship to answer important questions about the management of mountain goats.

We have invited consultants, government biologists, First Nations representatives and conservation experts to provide insight and direction about the future needs of Mountain Goat and their habitat.

We welcome members of your association who can provide productive and respectful information to help develop an action plan for mountain goat management.

For more information and registration information you may visit our website at [www.mountainhunter.com](http://www.mountainhunter.com) or contact our office.

Thank you for your consideration.

Sincerely,

Scott Ellis  
General Manager  
Guide Outfitters Association of British Columbia

*Wildlife Stewardship is our Priority*
